PROFILE SUMMARY

Electronics and Communication Engineering undergraduate with a focus on AI & ML applications. Experience in deep learning, computer vision, and simulation-based optimization. Interested in applying data-driven approaches to real-world problems.

EDUCATION

B.Tech in Electronics and Communication Engineering (AI & ML) Vel Tech University, Chennai	Expected May 2026 CGPA: 6.92 / 10.0
Intermediate (MPC) Narayana Junior College, Hyderabad	July 2020 - June 2022 Marks: 814

PROJECTS

Seed Disease Identification using Hybrid CNN Model May 2026

- Built a hybrid CNN-based model for feature extraction and classification of seed diseases.
- Applied image preprocessing and data handling techniques for improved prediction reliability.

Tech: Python, CNN, Machine Learning, Image Processing

Fiber Optic Biosensor Optimization using Genetic Algorithm Oct 2025

- Developed a simulation-driven framework integrating COMSOL with MATLAB GA for sensor optimization.
- Improved sensor sensitivity by optimizing design parameters using iterative GA convergence.

Tech: COMSOL Multiphysics, MATLAB, Genetic Algorithm

Urban Traffic Forecasting using Deep Learning May 2025

- Built deep learning models using LSTM and GNN to predict traffic patterns from temporal & weather data.
- Designed a pipeline for preprocessing, model training, and prediction of traffic flow.

Tech: Python, LSTM, CNN, GNN

SKILLS

Languages: Java

Core: Machine Learning, Deep Learning, Genetic Algorithms

Tools & Technologies: Git, GitHub, COMSOL Multiphysics, Jupyter Notebook

Libraries: NumPy, Pandas

Concepts: Data Preprocessing, Model Training, Optimization Techniques

CERTIFICATIONS

Python Programming Course (MyCaptain) Aug 2025

Covered Python fundamentals, data analysis, and basics of web development (Flask/Django) and automation.

Java Programming Course (MyCaptain) Mar 2025

Covered Java fundamentals, OOP concepts, and basics of frameworks like Spring and Hibernate.

ADDITIONAL INFORMATION

Languages Known: Telugu, English, Hindi

Hobbies & Interests: Learning new things, Watching anime, Indoor and outdoor sports
